EMILY VAN HOFF

Welcome to Echo! This collection features a large-scale, playful design in 13 vibrant colorways, bringing all the dynamic energy your projects have been waiting for.

Keep it whole and let the woven ombre braids be the star of the show, or cut it up to transform it into a striking abstract tonal element.

This versatility makes it a delight to work with for a wide range of projects.
Hand quilting along those strands? Divine.
Your favorite block? Turbo charged.
Backing and binding? Yes, please!
A quick jelly roll throw? Chef's kiss.

Whether you're a solids devotee ready to mix things up or a print enthusiast in search of some monochromatic movement, Echo has you covered.
