ROBIN  PICKENS

Come join in the Winterly world of freshly fallen snow on a lovely landscape of pine trees. It's a snowy playground for the birds as they decorate for the winter holidays. White and red birds glide through the air with ribbon trails while others exist in graphic triangle trees with holiday ornaments and delightful treats. Christmas lilies bring a bold burst of red to the scenic collection and are complimented by little sprigs, leaves and berries.

This nature-inspired holiday collection has a 24" panel that provides four square images with birds and two rectangular scenic hillsides, suitable for holiday decor of pillows or runners OR make them into holiday gift bags with beautiful quilt block borders! The panel can also be divided in a quilt top like the Courtyard Lattice quilt. There are 4 patterns with Winterly to give you fun projects for the holidays or class-friendly activities. Some of the designs jump over to the world of cross stitch for additional holiday decoration and stitching fun!

Reds, greens, cream and soft black work together for this Christmas line celebrating nature and our lovely flying friends. Dotty Thatched coordinates are the perfect snowfall for this winter line as blenders in the 28 SKUs of yardage and go with the 24" x 42" panel. Come visit the world of Winterly, arriving May 2024.
